

Sports Funding Allocation at Parkside Academy 2019-20**Sports Funding 2019-20 – Review of Spend**

At Parkside Academy we understand that through Sport and PE, pupils develop invaluable qualities such as discipline, teamwork, communication, endurance and ambition. These qualities enhance children's learning both in and out of the classroom.

At Parkside Academy our vision for Sport and PE includes:

- 🌳 **A commitment to equipping every child with the necessary skills and confidence to lead a healthy lifestyle**
 - 🌳 **Providing children with a high quantity and quality of sports through lessons and after-school clubs**
 - 🌳 **Opportunities for inter school competition in football, golf, tennis, hockey and gymnastics sports**
 - 🌳 **Opportunities for intra school sporting competitions through Sports Days and other events**
- 🌳 **Greater exposure to a wide range of sporting activities which children might not otherwise experience**
 - 🌳 **Raising the numbers of children participating in sporting activities**
- 🌳 **Ensuring that every child has an equal opportunity to take part in PE and sport in a manner to suit their ability**

Our school provides a minimum of 2 hours of PE every week, as well as a variety of lunchtime and after school clubs which increases pupil participation in sporting activities.

We have now fully updated our facilities in school, which include an extensive playground, an adventure playground and sports field.

At Parkside Academy we have employed a PE Specialist, who runs sessions during the school day and facilitates some after school clubs. He also assists with special sporting events such as Sports Days and sport festivals. These sports coaches are also involved in the CPD development of our staff, which will ensure long lasting impact upon the quality of P.E. within the school.

As staff, we work together to give the children a secure set of sporting skills. Annual Parent Surveys, and surveys of children through the School Council, have shown an increase in satisfaction for the provision of P.E. and Sport at Parkside. Within P.E. provision we are also promoting healthy lifestyle choices and the Special Skills values of confidence, team work, resilience, and attitude. The input of our Special Skills program throughout the school has the children actively engaged with the values this scheme promotes. Through cross curricular lessons and the use of KidSafe we are also developing a greater awareness of obesity, smoking, drugs and other harmful activities, which can have a detrimental effect upon health and wellbeing.

The breadth of subjects covered in our after school clubs is far ranging and includes: Football, Mini-bootcamp (involving parents), Karate, Games, Multiskills, Gardening, Gymnastics, Yoga, Cricket and Basketball. The strength of after school club participation throughout the school is evident with most children in each year group taking part in at least one after school sporting activity. Some clubs are so popular

that they rotate pupils half termly. (140/149 - 96% participation)

Our Breakfast Club offers a social and healthy start to the day, where from 8am every morning children can enjoy healthy choice and some physical activities. We have had an increase of attendance this year of 50% from the previous year. (5,000 breakfast served)

Every child also has the opportunity to attend weekly swimming lessons with well-trained swimming staff. Our School Council also help to organise a number of initiatives, which increase pupil participation in physical activity. For example, a dance event was created by pupils within their Family Group Teams to perform the skills learnt through dance class in school.

Our Afterschool Club (20 pupils) encourages physical activity daily and all children participate.

In summary, the Sports Funding Allocation has allowed us to engage all pupils in regular physical activity and educate them about healthy lifestyles. Employing a specialist coach has allowed us to raise the profile of sport within the school, provide a wider range of activities, and train staff as part of their CPD.

Due to lockdown, our main focus for the school year ahead is to address the issue of childhood obesity, in order to support the whole child as we believe it has had a huge impact on the entire country. We would like to carry the money over to next year and use both funding's, amounting to approximately £30,000, to enhance the whole schools outdoor sport and fitness provision.

Key achievements to date:	Areas for further improvement and baseline evidence of need:
<ul style="list-style-type: none"> • 90% of KS2 children taking part in local competitions and sporting opportunities. • % has improved from 13% of children being least active to 5%. • 95% of our children attend a sporting after school club. 	<ul style="list-style-type: none"> • Continue developing our KS2 curriculum as we extend our age range. • Continue to purchase and update equipment to ensure all children have access to high quality resources. • Ensure the skills we are teaching are embedded in children's long term memory, linked to CPD in school.
