

PE and Sport Premium 2021 – 2022

This year we intend on using our budget of £17,720 plus the £1677 unspent budget from last year totalling the amount of £19,397 for the following:

- 🌱 Improve our resources as audited by our school council and games leaders.
- 🌱 Provide opportunities for staff to access relevant and up to date courses to support the teaching and learning of PE across the whole school.
- 🌱 Embed sporting skills in each and every child's long term memory.
- 🌱 Work with karate instructor, Sensei Natalie to deliver karate in an after-school club.
- 🌱 Purchase PE equipment which will be needed as we are now a full Primary School.
- 🌱 Provide more opportunities for Pre-School and Nursery pupils to visit Play Max soft play to support their physical development.
- 🌱 Allow our pupils to experience outdoor education at Water Park and a residential.
- 🌱 Provide targeted swimming lessons for children who need support in meeting the NC requirements across all year groups throughout the year.
- 🌱 Develop balance skills and spatial awareness of EYFS pupils through Yo-Kids yoga sessions and Rhythm Time sessions.
- 🌱 Provide children with behaviour difficulties a space to access Yo-Kids yoga sessions, used as a soothing and calming place.
- 🌱 Ensure all children have access to a physical after school club.
- 🌱 Provide specialist coaches to work with children during after-school clubs and preparing for competitions.
- 🌱 Provide opportunities for KS1 children within local competitions e.g. Gymnastics and Multi-sports/Sports hall events.
- 🌱 Allow opportunities for children in KS2 to access local competitions e.g. Basketball, Netball, Football, Golf, Tennis, Orienteering, Gymnastics and sports hall athletics.
- 🌱 Purchase appropriate kits for children to wear when attending events and competitions in order to support raising the profile of PE across the school community.
- 🌱 Provide an active Breakfast Club for all children to ensure a healthy start to the day and wake children up ready to access their learning.
- 🌱 Enhance schools outdoor sport and fitness provision with the potential of building a netball court.
- 🌱 Extend the school hall providing children with efficient space to maximise their sporting potential.
- 🌱 Purchase more outdoor equipment to provide children with a variety of different games to play during play/lunchtimes and increase activity levels.
- 🌱 Purchase equipment to support children in our Early Years with physical development of their gross and fine motor skills for both inside and outside.

We will ensure these improvements are sustainable by continuing as staff to be outstanding role models, encouraging children to live healthy and active lifestyles, both in school and outside of school. Providing excellent links with local schools, local clubs and local health centres.
